

# Cognitive Computing

Shreesha Kadambi  
Leader, IBM Watson Delivery India

## Oil & Gas

**80,000** sensors in a facility  
produce **15** petabytes of data

## Public Safety

**520** terabytes of data are produced  
by New York City's surveillance cameras each day

## Energy & Utilities

**680m+** smart meters will produce  
**280** petabytes of data by 2017

## Healthcare

The equivalent of **300** million books of health  
related data is produced per human in a lifetime

# More devices are creating more information.

**1,200,000**

lines of code in a  
smartphone

**80,000**

lines of code in  
a pacemaker

**100,000,000**

lines of code in  
a new car

**5,000,000**

lines of code in  
smart appliance

# Three capabilities differentiate cognitive systems from traditional programmed computing systems...

## Understanding

Cognitive systems understand like humans do.

## Reasoning

They reason. They understand underlying ideas and concepts. They form hypothesis. They infer and extract concepts.

## Learning

They never stop learning getting more valuable with time. Advancing with each new piece of information, interaction, and outcome. They develop “expertise”.

.... allowing them to interact with humans.

# Cognitive systems forge a new partnership between man and machine.

## Humans excel at:

- Common Sense
- Morals
- Imagination
- Compassion
- Abstraction
- Dilemmas
- Dreaming
- Generalization

## Cognitive Systems excel at:

- Locating Knowledge
- Pattern Identification
- Natural Language
- Machine Learning
- Eliminate Bias
- Endless Capacity

# As the Watson technology evolves and deepens, so are the ways it's being put to work in the world.

**20**  
Industries

**45**  
Countries

**50,000**  
Students  
in Melbourne

**80K**  
Developers  
building with Watson

**500+**  
Partners  
Powered by Watson

**1.1M**  
Patients  
at Bumrungrad

**8**  
Languages  
Learned by Watson

**200**  
Universities  
offering Watson courses

**5.5M**  
Citizens  
in Singapore

Bumrungrad  
International  
HOSPITAL

Memorial Sloan-Kettering  
Cancer Center

 SoftBank  
Robotics

# Cognitive systems rely on collections of data and information:

Data, information, and expertise create the foundation.

**Examples include:**

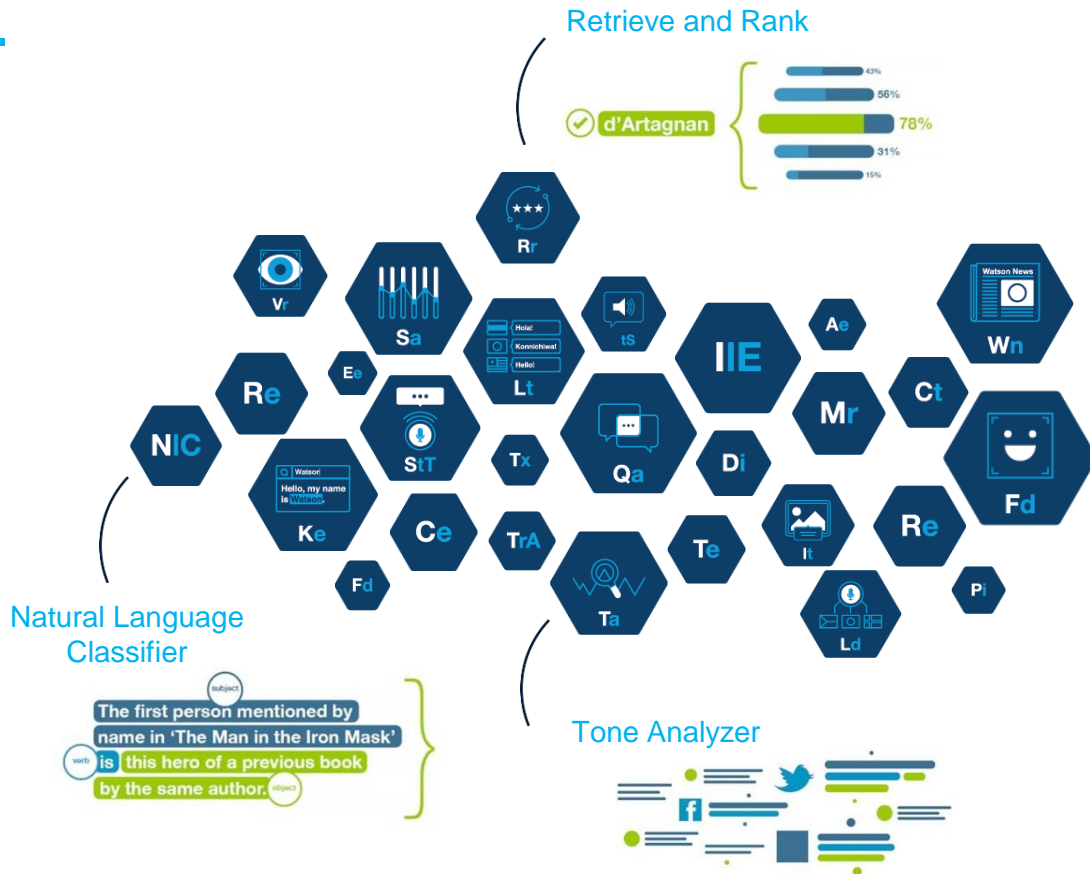

Analyst reports	Newspapers
tweets	Blogs
Wire tap transcripts	Wiki
Battlefield docs	Court rulings
E-mails	International crime database
Texts	Stolen vehicle data
Forensic reports	Missing persons data

# Leverage Watson APIs to apply cognitive capabilities.

## 50 underlying technologies

Entity Extraction  
Sentiment Analysis  
Emotion Analysis (Beta)  
Keyword Extraction  
Concept Tagging  
Taxonomy Classification  
Author Extraction  
Language Detection  
Text Extraction  
Microformats Parsing  
Feed Detection  
Linked Data Support  
Concept Expansion  
Concept Insights  
Dialog  
Document Conversion  
Language Translation

Natural Language Classifier  
Personality insights  
Relationship Extraction  
Retrieve and Rank  
Tone Analyzer  
Emotive Speech to Text  
Text to Speech  
Face Detection  
Image Link Extraction  
Image Tagging  
Text Detection  
Visual Insights  
Visual Recognition  
AlchemyData News  
Tradeoff Analytics

# Combine Watson APIs for higher value apps

*Example: Interactive Q&A with greater understanding and personality*

Speech to Text,  
Text to Speech

How do I open an account?  
Convert Speech to Text

Natural Language  
Classifier

Identify Intent  
-Intent = "Open\_Account"  
-Confidence: 0.876655900

Dialog

Dialog tree walks user to desired outcome

- Intent="Open\_Account" "
- Context = "Online Banking"
- Dialog could call a DB or CMS

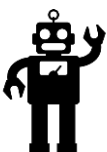

# Watson for Engagement

## State of the Art Virtual Assistant Capability

-  Allows a natural language interaction with the customer
- Q&A, Chit-chat etc.
-  Walks customers through business processes
- E.g. Application forms, password resets
-  Detects emotional states
- Responds in appropriate ways

## Market Leading Platform

-  Cross-platform mobile and web experience
-  New channels supported
- Partnerships with leading robotics manufacturers
- Robot SDK available
-  Advanced Machine Learning capabilities

# Watson for Engagement – An automated solution for customer engagement

Consumers can ask questions & get answers – at any time of day

Common business processes can be simplified and automated

Watson is available on more than mobile devices

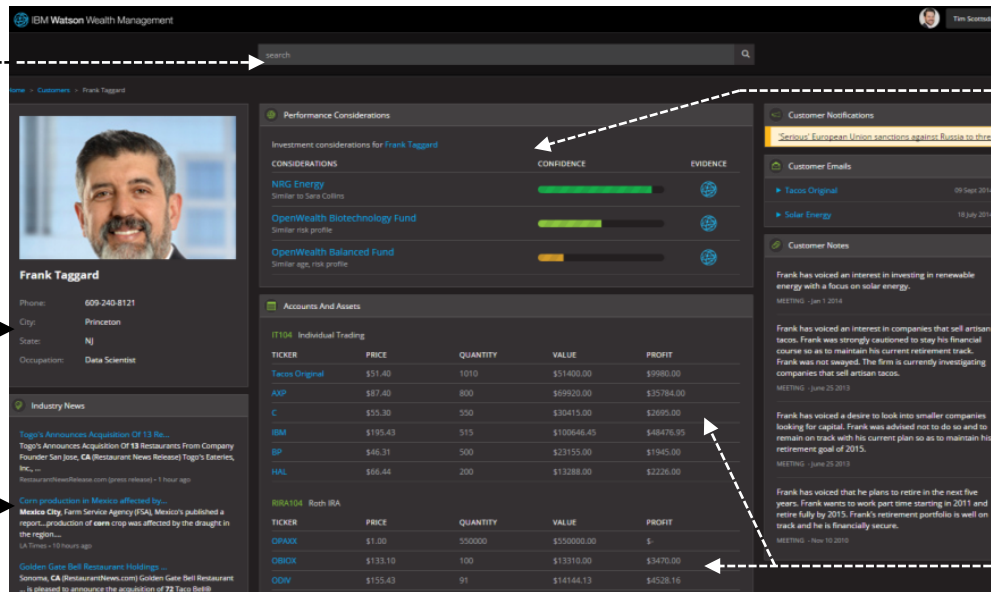

# Watson Explorer: Unified information application using Watson Developer Cloud services

User's search can be submitted to Watson Question Answering service simultaneously

Client data from cloud and enterprise systems (CRM, DBMS, etc.)

News highlighted with Watson Relationship Extraction service

Recommendations and alerts based on structured and unstructured content

Customer e-mails from corporate email system

Client notes from CRM

Account holdings from systems of record

# Watson Explorer's content analytics creates actionable data from unstructured content

## Unstructured content

**Commander 4.0 Cu. Ft.**  
**26-Cycle King-Size washer** –  
**white**. I hate this machine.  
Have had 3 calls on machine.  
You can't wash **large items**,  
Won't clean in the middle.  
**Leaves dry spots** through the  
clothes, I can only do **½ basket**  
of clothes. Will **not clean** or  
**mix bleach** in with the water...

**Watson Explorer**  
Deep natural-language  
analysis

## Structured data for analysis

Product	Commander
Category	4.0 Cu. Ft.
Size	26-Cycle King-Size
Model	washer
Color	white
Issue	large items
Issue	leaves dry spots
Issue	½ basket
Issue	not clean
Issue	mix bleach

# CogniToys

## Meet the CogniToys Dino

<https://cognitoys.com/>

### PLAY AND LEARN!

CogniToys are the next generation of internet connected smart toys that learn and grow with your child.
